Donor One-Pager FY24/25 — Statement of Need

THE NEED

In three Nairobi informal settlements, girls aged 15-25 face unplanned pregnancy, school dropout and gender-based violence — in silence. Peer-led, evidence-based mentorship changes that trajectory. Since 2023, 50 youth co-created the Journey to Wholeness (JTW): an 8-session curriculum on SRH, mental health and healthy relationships.
